1. Introduction

This document contains the issues for SQL Multimedia and Application Packages (SQL/MM) – Part 8: Metadata registry (MDR) 1st edition from the study period meeting, Wuhan, China, August 2009.

2. Comments and Notes

- We have a comment that this part consider ISO/IEC 11179-3 3rd edition
: The current status of ISO/IEC 11179-3 3rd edition is CD2
- Korean proposal
: We need to maintain the current scope of SQL/MM-8 and keep developing its 1st edition. Then, after ISO/IEC 11179-3 3rd edition is standardized, we'd better revise the 1st edition of SQL/MM-8. The reasons we made such decision are follows:
 - ISO/IEC 11179-3 3rd edition is under development
 - SQL/MM-8 can be easily revised to cover the 3rd edition of ISO/IEC 11179-3
 - The others such as the parts of ISO/IEC 20944 are based on ISO/IEC 11179-3 (ed. 2)
