

**Title:**

**Call for Participation to ISO SC32/WG2 Study Group Meeting on  
Ontology-Metamodeling and Semantic Interoperability in Cloud Era**

**Date: 2010.05.28**

**Source: Keqing He, Hajime Horiuchi, Bruce Bargmeyer, Denise B. Warzel**

**Rationale and Candidate Topics:**

The SC32/WG2 have approved a study group meeting on the improvements of MDR (ISO/IEC 11179) and MFI (ISO/IEC 19763) that are expected to be candidate standards in Cloud Era. Then, a study group meeting on the discussion of these improvements is needed to calibrate scopes and investigate technical issues through the F2F discussions.

Candidate topics include, but not limited to

- Semantic Interoperability
- Future of MDR/MFI
- On-demand Model and Service Selection
- Registry Service Protocol

All members from ISO/IEC JTC1 SC32, SC38, SC7, and others, who are interested, are all welcome to join this meeting.

It will be held at the Wuhan University, Wuhan, China as followed.

Date: Aug 26 (Thu), 2010 – Aug 27 (Fri), 2010

Place: SKLSE (State Key Laboratory for Software Engineering) of Wuhan University, Wuhan, China.

Host: Keqing He (Wuhan University, China)

Co-organizer:

Hajime Horiuchi (Tokyo International University, Japan)

Bruce Bargmeyer (Lawrence Berkeley National Laboratory, USA)

Denise B. Warzel (National Cancer Institute, USA)
