

To avoid unnecessary confusion, I would like to standardize the terms regarding process and service tentatively just for our discussion.

Notion No	MFI Part	Explanation	Identical condition	Keith	Kevin	Masao	Proposed term for discussion
Notion 1	Part 5	What	Pre and Post conditions are the same.	-	function	process	capability
Notion 2	Part 5	How, independent of notation	In addition, decompositions are the same.	process model	process	process model	process
Notion 3	Part 5	Decomposition of above.		process	process	process model	process component
Notion 4	Part 5	How, depending on notation	In addition, representations are the same.	process model?	process ?	process model?	process model
Notion 5	Part 5	Decomposition of above.		process?	process ?	process model?	process model component
Notion 6	Part 7	How, depending on its implimentation	In addition, implemen- tations are the same.	service	service	service	service

What should be include in Part5?

Notion No	Explanation	Keith	Kevin	Masao	Proposed term for discussion	Keith	Kevin	Masao
Notion 1	What	—	function	process	capability	—	○	—
Notion 2	How, independent of notation	process model	process	process model?	process	○	—	○
Notion 3	Decomposition of above.	process	process	process model?	process component	○	—	○
Notion 4	How, depending on notation	process model?	process ?	process model?	process model	—	—	—
Notion 5	Decomposition of above.	process?	process ?	process model?	process model component	—	—	—
Notion 6	How, depending on its implimentation	service	service	service	service	Part7	Part7	Part7

- This is not a complete list.
- There are several other things to be included in Part5.
