2. Programme for Work update

Opening Interim

Review of Action Items

- Baba Pipriani to discuss with Ray a replacement co-editor for 11179-6
- Reminder that each NB should consider contacting OASIS for review of MFI standards, coordinate responses through their NB comment process

Liaison Report

- Baba Piprani gave a report on SC38 WG1 Web Services, WG2 (SOA) and WG3 Cloud Computing. There is overlap between activities of SC32 and SC38. SC32 will coordinate a meeting with SC38 to present/overview of MFI, and to explain the work we are doing that pertains to services.

19763-2 MFI Core model and model mapping

Keith Gordon (UK) led a discussion about MFI Core Model Part 2. Documents were posted to the WG2 site. It was agreed that all MFI parts would replace references to MDR with references to MFI Core Model Part 2.

19763-8 MFI Metamodel for Role/Goal registration

Jian Wang led a discussion about the ballot comments on 19763-8. Technical comments that needed clarification were discussed and dispositions agreed upon.

19763-7 MFI WD2 Metamodel for service registration

Zaiwen FENG led a discussion on MFI Part-7, Services registration, on the ballot comments. Dispositions on technical comments that needed discussion were agreed upon.

Proposal for Study Period on Cloud Computing Metadata

- **Ewelina Szczekocka** (PO) presented an overview of the telecom industry's perspective on Cloud Computing, opportunities and challenges and where cloud specific metadata might be useful in managing and using cloud computing services. **Baba Piprani** (CA) present slides showing the areas of concern that SC38 is interested in with regard to Cloud Computing and also a mind map of the similar areas from Telecom Industry. It was clear that there are some general categories of metadata for cloud computing. **Sungjoon Lim** (KR) also presented on interest in developing cloud computing metadata. A small group was put together of these three to draft an introduction/scope and plans for what might be done in a study period between now and Berlin SC32 Plenary. The group would look at the common areas of metadata and compare to the 19763-7 to identify the gaps. A timeline and suggested activities was presented to the group and it was agreed a study period would be recommended for resolution in Berlin but that work would begin right away.

20943-6 FGO Framework for generating ontologies

Dongwon Jeong (KR) led a discussion on disposition of ballot comments for 20943-6. A comment from CA that Editor should consider converting PDTR to PDTS was discussed. Agreed that CA would prepare a justification document to send to SC 32 chair for consideration and possibly ballot or discussion at 2012 Plenary.

19763-9 MFI On demand model selection (ODMS)

Jian Wang led a discussion of ballot comments for ODMS. It was agreed that the scope of 19763-9 should be restricted to RGPS or else the scope becomes too broad. Consensus was reached to recommend a resolution for title change to "ODMS based on RGPS" for 2012 Berlin meeting.

19763-5 MFI Metamodel for Process Registration

Fei He led a discussion of ballot comments for Process registration.

Study Period on information models

Keith Gordon presented a draft of the CD for 19763-12. NBs are requested to provide feedback to Keith (see action item)

Study Period on Forms

Steve Harris gave an update on the study period

20943-5 PDTR SMMP

Sungjoon Lim led discussion of 34 ballot comments.

19763-6 Registry Summary

Tatsumi Adachi (JP) led a discussion of the ballot comments. There were 97 comments, of which there were 15 technical comments. Disposition of the “te” comments was discussed.

19763-1 Ed 2

Hajime Horiuchi led a discussion of the draft of this new edition.

11179-1 Ed 3 Framework, 19763-1 Ed2 Reference Model, 19763-6 Registration Summary, 11179-6 Registration

Horiuchi led a discussion of the study period results and recommendations of MFI & MDR Harmonization. Consensus was reached to request a resolution to issue a ballot for project split to create a new edition of 11179-1 Ed 3 Framework, 19763-1 Ed2, 19763-6 Registration Summary, 11179-6 Registration, editors were selected and dates set for issuing the first CD. Consensus was reached to change 19763-6 project title from 19763-6 “Model Registration Procedure” to 19763-6 “Registry Summary”; Document reference is WG2N1533r1.

11179-5 Ed 3

Judy Newton led a discussion of the draft working paper for this new edition.

20943-5 Semantic Metadata mapping procedure (SMMP)

Taesul Seo and Sungjoon Lim led a discussion on SMMP. A contribution from the US was discussed in Bugzilla #521. Consensus was reached to incorporate this contribution, as well as to consider a contribution from TC204 Transportation Industry TR 25100 and to produce a PDTR2 for ballot 2011-07-15.

20944 Family of Standards regarding API bindings and profiles

WG2 Convenor led discussion based on editor’s correspondence as set dates for resolutions FDIS. Sneak-peek is available from WG2 document library, documents N1551-N1576

24706-1 and 24706-2

These projects are at risk, the editor supplied an explanation for delay and dates for progression of these standards. He plans to have a discussion with Japan NB on some of their concerns and reissue 24706-1 FCD as a CD2 over summer (2011-07-15), then DIS by 2011-12-01.

24706-2, CD 2011-12-31, DIS 2012-05-31, FDIS 2012-12-31.
