CA1	086	Foreword	List of parts	Te	The Santa Fe meeting apparently decided to stabilize ISO/IEC 11179-2, but edition 2 of 11179-2 is not consistent with edition 3 of 11179-3. Therefore, WG2 needs to decide either to withdraw part 2 or create a new edition that is consistent with part 3. If a new edition is created, then it should add value. Edition 2 simply repeats material that is included in part 3 Edition 2, and thus adds no value.	If part 2 is withdrawn, then it should be removed from the list of parts.	
CA2	165	2 Normative references	11179	Te	This clause claims that all parts of 11179 are indispensable for the application of this document. We suggest that only parts 1 and 3 are indispensable to this part.	List parts 1 and 3 in clause 2, and lists parts 4 and 6 in the Bibliography. If Part 2 is not withdrawn, then it too should be added to the Bibliography.	
CA3		All		Ge	If any further problems are discovered before or during the Comment Resolution Meeting, and a consensus can be reached on a solution, then they should be corrected.	To be determined at the CRM as required.
